

Would you like to...

- Get your homework done promptly every night?
- Have more time for socializing and recreation?
- Be confident and tuned-in at school?
- Understand hard concepts you didn't get in class?
- Know how to get help when you need it?
- Believe that every kid is smart?
- Raise your grades so that you can get into cool careers and post high school options?
- Understand the connections between school and life?

In today's world, having a positive relationship with learning is more important than ever. It can make your life more fun and rewarding, and it IS possible!

According to Parents and Students

"I always felt comfortable and accepted spending time with Catherine. I learned that math is useful every day and that it's ok to start right where you are."

- student

"Catherine is a planter of seeds, a wise observer and nurturer of the needs of the student. She is patient and non-judgemental. Her curriculum is customized for each student."

- parent

*"Success includes getting good grades, but doesn't end there. At **Now I Get It!** my child experienced the positive effects of discovery and understanding, and began to see some connections between school and life. Her curiosity, confidence and love of learning all increased. And the bonus was our pleasant evenings together because she had finished her homework!"*

- parent
